Sharpdesk® Mobile v2.3 Enhancements with New Features

Mobile Printing and Scanning Solution to Help Increase Productivity
Sharp Imaging and Information Company of America is pleased to release Sharpdesk Mobile v2.3 with exciting features to enhance your mobile printing and scanning needs. Sharpdesk Mobile offers security as well as comprehensive printing options and scanning features to support your customer's mobile devices.

Included in version 2.3 of Sharpdesk Mobile's enhancements:

· **Additional Model Support –** Advanced and Essentials Series high speed color workgroup models are now supported.

- o **MX-5050N and MX-6050N**
- o **MX-5070N and MX-6070N**

· **Mobile Platform Support** – Supported platforms now include Android™ 6.0. Stay tuned for support of iOS® 10 when it becomes available.

· **More Print Setting Options** – Print settings now include punch and stapleless staple options.

· **Attach Multiple Files** – Send multiple files via e-mail or to other applications.

· **Multicrop Scan Data** – A feature for the new Advanced and Essentials Series color workgroup models. When enabled, you can scan multiple business cards or receipts once to create multiple documents, one document file for each business card or receipts included in the scan.

Sharpdesk mobile is available to download for free from the Apple® App Store ₅ₘ and Google Play™ store. For more information on Sharpdesk Mobile and other mobile solutions from Sharp, please visit the Sharp USA website.

Sharp understands that as organizations grow, the need to support an extended mobile work place is a critical necessity to promote efficiency and productivity. With this latest release of Sharpdesk Mobile, Sharp delivers new enhancements to a comprehensive solution to help organizations embrace a bring your own device (BYOD) environment with mobile security to assist in printing and scanning on Apple and Android devices.
